DEVELOPER FULLSTACK EMBEDDED

Hello, I am an inventive, methodical developer with a passion for IT, especially free and open source software. I enjoy exploring new technical solutions and am ready to take on new challenges with you :)

COMPÉTENCES

HARD SKILLS :

- c, c++, js, ts, html, css, svelte, php, node.js, nest.js, git, docker
- emails, sending emails, receiving emails (the it crowd ;)

SOFT SKILLS :

- Learning ability and autonomy
- Attention to details, patience
- Problem solving
- Teaching skills & clear communication

SELECTION OF EXPERIENCES

gitea.hugulumu.com/

- Backend & Embedded Developer - OSKEY (2025-2026) oskey.io/
< TypeScript, Firebase, MongoDB, Nest.js, C, Zephyr />
Designed and implemented backend features (Firebase/Nest.js) and embedded firmware in C (Zephyr) for an IoT intercom system. Enhancing system reliability by optimizing memory allocation, refining concurrency handling, and implementing comprehensive integration tests.
- Fullstack Developer - FIPF (2024) carteprof.org/
< WordPress, JavaScript, PHP, MySQL />
Developed a custom WordPress plugin to manage an association's administration and payments. Audited and fixed third-party plugins by analyzing their source code, designing scalable solutions to ensure long-term stability across WordPress updates.
- Front-End Developer - KOSMOPOLIT (2023) kosmopolit/
< JavaScript, HTML, CSS />
Created the showcase website for an association publishing a Franco-German literary review. Developed a clear, multilingual interface to highlight publications and facilitate navigation.
